

High-speed Twin Fan Suction Excavator

26/32T

FOR THAT ADDED PERFORMANCE

Our fleet of high-speed suction excavators, available in either 26 or 32 tonne models. They are equipped with a range of specialist features tailored to meet your needs. Their 'medium' size makes them flexible and adaptable for worksites with restricted or larger spaces.

- Remote drive
- High speed twin fans
- Left hand tip option
- Height & slew restrictor
- High pressure water
- High pressure air

KEY CAPABILITIES

Excavate from a distance of up to 80 metres

Excavate vertically up to 30 metres

ROUGH TERRAIN

Force One is home to the UK's only 8x8 rough terrain suction excavator. This machine boasts a military-style chassis, 8-wheel drive, and high ground clearance, which enables it to operate "off-road"
