# Suction Cubes

1.3T

## FOR SMALL YET VERSITILE

Our industry expertise in suction excavation has enabled us to innovate and enhance our suction cubes. These compact but adaptable attachments are perfect for remote locations where larger units cannot reach. The setup is quick and easy, making it ideal for shorter timeframes or limited working windows.

Rotating Head

12,500 M3/hr

Variety of applications

Ideal for remote locations

## PLANT SPECIFICATION

Length

2621MM

Width

1450MM

Height

2200MM

## FLEXIBLE USE

Our suction cubes can be used for a variety of applications. Ranging from uses including but not limited to, wetbed excavation, ballast renewal, sleeper changes and service location. We have designed and built various nozzle attachments for our suction cubes, providing safe excavation and aggressive dig options.
